Redesigned Dékor Plus Provides Parents with Elegant and Simple Disposal Solutions

KENNESAW, GEORGIA –September 10, 2009 – The Diaper Dékor Disposal System has incorporated new designs and functionality and now look and work better than ever. The new sleek oval-shaped design complements any nursery, while providing hands free diaper disposal. The Dékor diaper disposal system has two sizes to accommodate any family’s needs including the Dékor (regular size) and the Dékor Plus.

The ever-popular and best-selling diaper pail, the Dékor Plus, provides exceptional capacity- up to 40 diapers before the bag needs to be emptied. The Dékor Plus 2-pack refills can hold up to 668 diapers. Dékor refills provide parents with a solution to containing a large volume of diapers while efficiently controlling odor. The lightly scented continuous liner and the internal cutter on the inside of the door allow the user to make as many or as few bags as desired. Dékor pails have been well received by parents and media alike and are ranked as a top diaper pail among *Babble’s Best*, *Consumer Reports* and *About.com*.

“Its sleek design and perfect size make it a Mommy Must-Have for any nursery! There are many unique features to the Diaper Dékor Plus that I was very happy with,” says Jenna Gaskill, of A Mom’s Balancing Act.

Dékor products also include the highly portable Soft Touch Changing Cushion with three inflatable sides that provides a soft protection and makes it easy to travel with baby. For more information about Dékor products, visit www.diaperdekor.com.
